You can accomplish this by going to your WINDOWS START menu and opening the CONTROL PANEL. From there, choose INTERNET OPTIONS and you want to click on the DELETE button locate in the center of the window under "delete browsing history." You should have a list of options with checked boxes at this point so you want ONLY the TEMPORARY INTERNET FILES and the COOKIES to be checked, then click delete. Once deleted, close your browser and relaunch JIBEI and log back in. The problem should be gone. quit << Module: G2 Introduction to GHS version: 3.0 build: 573 phone: 1.800.971.1080 email: support@clicksafety.com © 1999 - 2013 ClickSafety.com, Inc.
